

REFERRAL & SCHEDULING GUIDE

Your 3-Step Guide to
Getting Neurology Care at
Minneapolis Clinic of Neurology

3-STEPS TO BE SEEN SOONER

The Minneapolis Clinic of Neurology (MCN) is a specialty clinic. That means you may need a referral from another provider like your primary care doctor, pediatrician, or another specialist in order to schedule an appointment.

The good news? **You can choose where your referral goes.** If you'd like to be seen at MCN, just ask.

We've expanded our care team so patients can be seen sooner and receive the neurologic care they need without waiting months.

Ask Your Provider For a Referral

Clearly tell your provider where you'd like your referral to go.

Try one of these options:

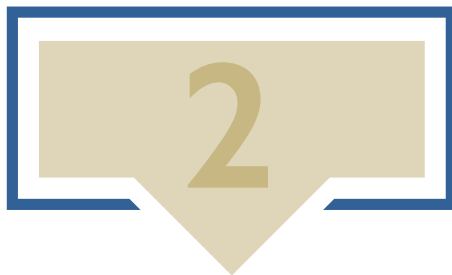

Option 1:

"I'd like to be referred to the Minneapolis Clinic of Neurology."

Option 2:

"I'm currently on a waitlist, but I've heard MCN has shorter wait times. Can you send my neurology referral there instead?"

This works whether you're at your annual physical, an urgent care appointment, or speaking with a specialist.

Know What Happens Next

Once your provider sends the referral to MCN, here's what you can expect:

- **Our scheduling team will call you directly** to set up your appointment.
- During your intake call, we'll confirm a few details to make sure we're the right fit for your care.

Once you're scheduled, **you're on your way to being seen sooner.**

Feel Confident About What Comes Next

You took a step toward expert neurologic care and you didn't have to wait months to do it.

Once your referral is sent to MCN, **you're in good hands.**

Our team will take it from here, guide you through scheduling, and answer any questions you have along the way.

All you need to do now? **Take a deep breath your path to answers just got shorter.**

Please feel free to contact us directly with any questions.
